What is Folkestone Music Lab?

Folkestone Music Lab is a creative space for young people aged 11-19 to work on band development, music technology and production, singing and instrumental skills, songwriting and more.

No previous musical experience or instrument required - just a passion for music!

No matter what your style, ability or interest – you might be a budding sound engineer, want to play jazz, rock or classical music – we will make every effort to provide it for you. If we don't have what you want, please tell us! All sessions are supported by a team of professional tutors and pastoral staff.

How much does it cost?

There is a £2 charge per session.
